

Dodge TIGEAR-2

Right Angle Gear Reducers

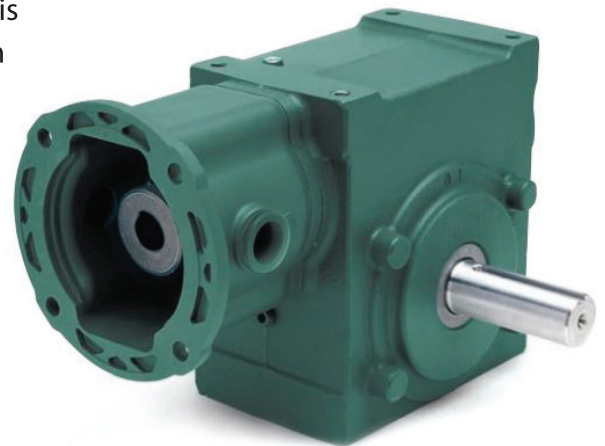

Advancements in Speed Reducer Technology

The TIGEAR-2 is a right angle, single stage worm gear reducer with a rugged cast iron housing and power dense gearing design to ensure maximum reliability. Stainless steel and the exclusive E-Z Kleen finish are available for tough washdown applications. The TIGEAR-2 line is specifically engineered with advanced sealing and bushing system technology that can actually lower your total cost of ownership.
