

# Sumitomo Hyponic Right Angle Hypoid Gear Drive

## Efficiencies far higher than worm gearing

The Hyponic is a right angle, all-steel hypoid gear drive. In addition to the patented Hypoid gear technology, the Hyponic features patented Hypoid gear technology, maintenance-free grease lubrication, high efficiency operation, and universal mounting. Hyponic is the ideal choice for bottling, bakery, and food processing industries. Sumitomo's patented hypoidal gear technology is extremely high-performance and exceptionally more efficient than worm gearing across ratios from 10:1 to 240:1.

- Up to 85% efficient across all ratios and requires no cooling fan
- NSF 51 approved antimicrobial powder coating
- More torque density in a compact unit
- Maintenance-free grease lubrication eliminates oil changes
- Aluminum, corrosion resistant housing
- Multiple mounting configurations
- Hollow bore makes installation and retrofit quick and easy
- Extremely quiet, smooth operation is ideal for commercial use
- Optional popular keyed-hollow bore sizes available from stock:  
1-3/16", 1-7/16", 1-15/16", 2-3/16"
