Industrial Distributor +

LEADING THE WAY IN...

- + Bearings & Power Transmission Distribution
- + Machining, Welding & Custom Fabrication
- + ISC Automation & UL Listed Panel Shop

Adding Value to Industrial Parts Distribution

ISC Companies is committed to delivering customer satisfaction and the greatest overall value offered by an industrial distributor. At our core, we are a distributor of bearings and mechanical power transmission parts. But, like many long-standing businesses, we've evolved over the years to better serve our customers. We've added locations, expanded our parts offering, and added services like machining, welding, fabrication, assembly, UL control panel design/build, and more.

We want to minimize your project scope by providing the parts you need, the brands you want, and the service you expect. Whether you need a simple part or complex assembly, ISC Companies is your one-stop-shop for standard and custom industrial solutions. »

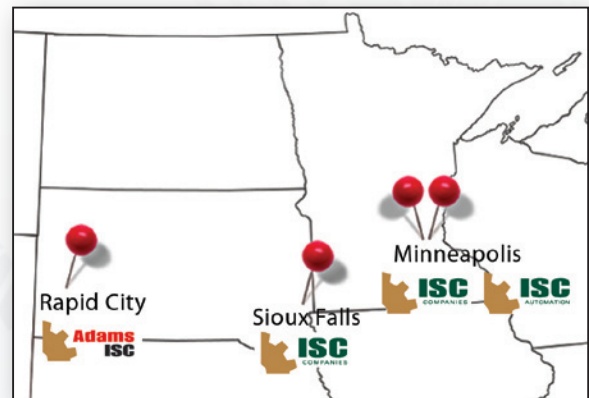

Locations & Capabilities

Company Name: ISC Companies, Inc.

Former Name: Industrial Supply Co. (Rebranded 2008)

Year Founded: 1939

Subsidiary Name: Adams-ISC, LLC. (Est. 2011)

Minneapolis (HQ)

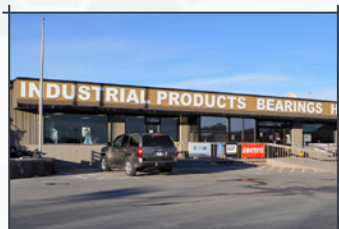

Minneapolis

Sioux Falls

Rapid City

Founded in 1939

- Industrial Parts Distribution
- Precision Machining
- Welding & Fabrication
- Production Metal Cutting
- Custom Assemblies
- Parts Manufacturing
- Conceptual Design
- Local Truck Deliveries

A Division of ISC Companies, Inc.

- UL Listed Panel Shop
- Electrical Engineering
- Custom Programming
- Electrical Assembly
- Component Sourcing & Integration
- Control Panel Design/Build
- In-house/Live System Testing
- System Evaluation & Planning

Formed 1966: Acquisition of Dakota Supply

- Industrial Parts Distribution
- Machine Tooling Parts Distribution
- UL Panels from ISC Automation

Formed 2011: Merger with Adams Machining & Welding

- Industrial Parts Distribution
- Hydraulic Parts Sales/Service
- Precision Machining
- Hydraulic Hose Assembly
- Industrial Equipment Service
- Hydraulic Cylinder Rebuild
- Certified Welding
- In-the-field Services
- Portable Line Boring
- Crane Inspection/Repair

Manufacturer Partnerships & the Top Brands* We Offer

With more than 80 years of experience in parts distribution, we have formed close relationships with our manufacturer partners and built a reputation as a well-respected and trustworthy distributor. Customers rely on our experience and product knowledge for help with parts selection, application assistance, timely service, and very competitive pricing. »

*The manufacturers pictured on this page represent only a small fraction of what we offer. As an industrial distributor, we have access to hundreds of brands and millions of parts. If you don't see the brand you need, please reach out to our sales team and let us know what you're looking for. We'd love to help! Contact us by phone 763-559-0033 or by email custserv@isccompanies.com.

Industrial Services from ISC Companies

CNC Milling

- 6 Mills
- 3- and 4-Axis
- Automatic Pallet Changer
- Wireless Probing

CNC Turning

- 5 Lathes
- Automatic Bar Feed
- Live Tooling

Metal Cutting/Sawing

- Marvel/Amada Bandsaw
- Capacity: Round Stock 10" Diameter
- Rectangular Stock 10" x 12" Wide
- Tolerance: Holds +/- .005

Welding

- AWS Certified Welders
- All Types of Metals
- TIG & MIG

Parts Manufacturing

- Small/Large Production Runs
- Part Modification
- Prototypes

Design

- Conceptual Design
- CAD/CAM Design
- SolidWorks (3D)/AutoCAD (2D)

ISC Automation & UL Listed Panel Shop

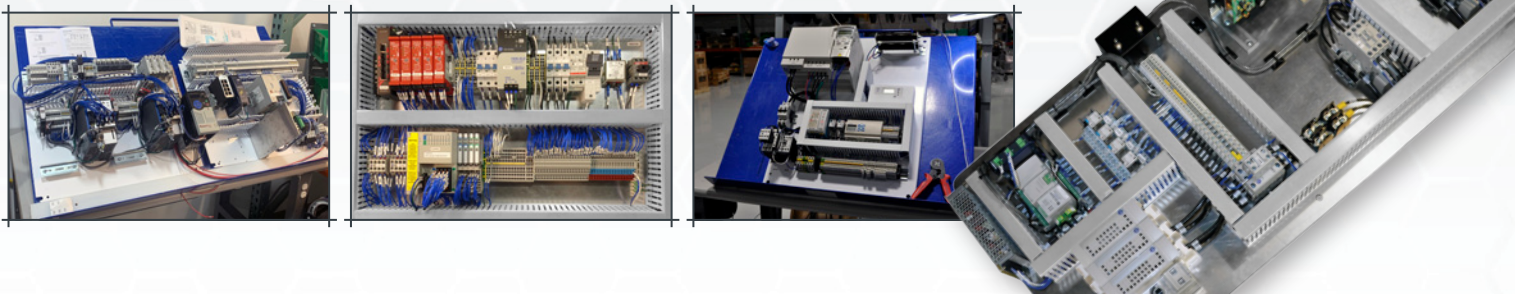

ISC Automation from ISC Companies is a specialized group of electrical professionals committed to providing custom industrial control solutions.

We are a UL 508a/698a listed panel shop with in-house electrical engineers and designers that are experienced in drafting, building, programming, and supporting control panels for use in a variety of industrial applications and working environments. »

ISC Automation Capabilities

- PLC (Programmable Logic Controller) systems
- HMI (Human Machine Interface) systems
- PC-based control systems
- System evaluation and planning
- Component specification and integration
- Custom programming and assembly
- In-house, live system testing
- Complete turnkey solutions
